

Final Year Project Supporting Material

Name: Binula Harryprashanth Madhavan

Student ID: 210375121

Supervisor: Dr. Mahesha Samaratunga

Project Title: CogniCare: Think. Play. Grow.

The project folder for the final year solution is available here (in a zipped file format):

[React-Flask.zip](#)

(The project folder is named 'React-Flask' to reflect the structure of the application, where React.js was utilised to develop the frontend and Flask was used for the backend)

The zipped file contains:

- The frontend and backend of the code, separated into their appropriate folders.
- Code for all cognitive games in the solution
- Files for testing components and game logic.
- A 'README' file with an explanation of the application and instructions on setting up and running the solution.

Please download the zipped file and follow the instructions listed in the 'README' file.
